Bill and Johanna,

I am very loathe to do this meeting until we have developed the strategy you are working on as a result of the call this morning. When do you expect to have that draft strategy to share? (I assume, given Paula's email, that you would incorporate this meeting into the strategy. Please confirm that as well.)

Thanks,

Shaun McGrath

Regional Administrator

Shaun- Attached is a proposal for Cynthia Peterson, our R8 Community Involvement Coordinator for the Animas site and next week's AC-Liaison, to attend Senator Roberts meeting with the Animas watershed community Monday night, 8/31. Bill Murray and Johanna Miller are on board with it and Liz Fagan has already responded that our AC-Liaisons will be attending. They plan to just attend and listen. **We just want to make sure this aligns with your vision and strategy for next steps.**

As stated in this proposal, for the site CIC, "This is an opportunity to engage with individuals and groups that will likely be more actively involved in our work in the Upper Animas Watershed. This meeting could set the stage for developing positive relationships within the broader community. This meeting is a sign of the community coming together to move forward, and it would be a positive step for EPA to join it."

Please let me know of your concurrence and of any other strategies or tasks you'd like us to engage in while there. If you'd like we can set up a further discussion with you on these topics. Thanks!

- Paula
